NORTH & WEST BRISTOL
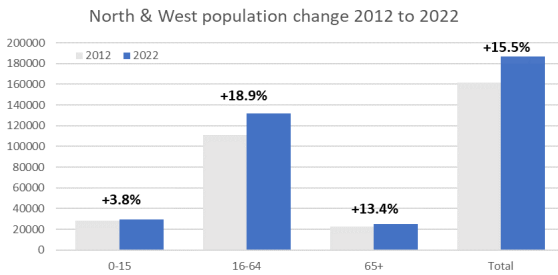

Locality Partnership Health Profile

An analysis of health, wellbeing and wider determinants in North and West Bristol, comparing the data with Bristol and England overall. Subset profiles for North and West (Inner) Bristol and North and West (Outer) Bristol are also included.
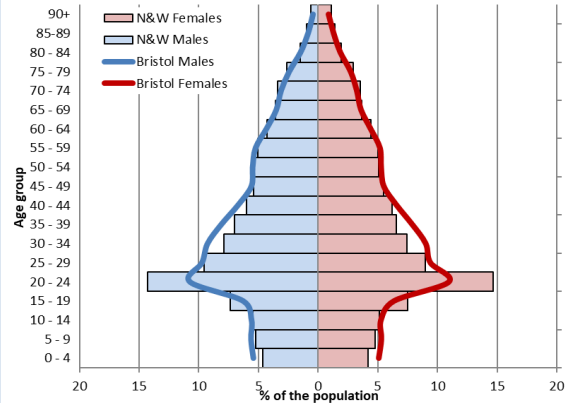

July 2024

North and West (N&W) Bristol

POPULATION (2022 Mid-Year Estimates)

North & West population change 2012 to 2022

N&W (Inner) wards:
Bishopston & Ashley Down
Clifton Down
Clifton, Cotham
Hotwells & Harbourside
Redland
Stoke Bishop
Westbury-on-Trym & Henleaze

N&W (Outer) wards:
Horfield
Henbury & Brentry
Avonmouth & Lawrence Weston
Lockleaze
Southmead

The total population in North & West Bristol has increased at a higher rate than the city average (10.6%) with all three broad age groups experiencing higher than city average growth. Growth in this locality accounts for nearly 55% of the city's increase.
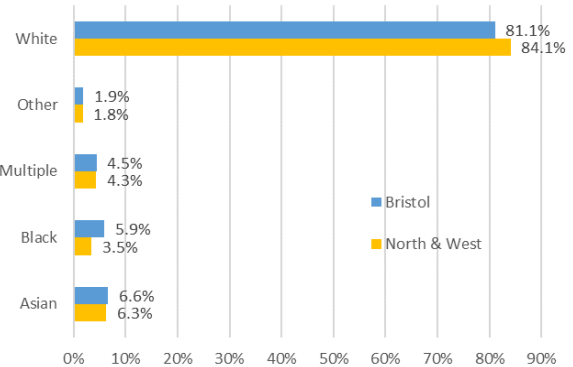

### LIFE EXPECTANCY AT BIRTH (2020-22)

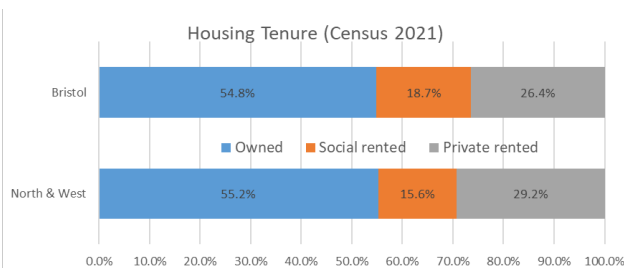

ETHNICITY (Census 2021)

DEPRIVATION

• North and West Bristol has a significantly lower proportion of residents living in the most deprived areas of Bristol than the Bristol average (8.6% v 19.9%)

• Southmead ward is the fourth most deprived ward in the city, Avonmouth & Lawrence Weston is the 5th most deprived, Lockleaze is the 6th most deprived and Henbury & Brentry is the 7th most deprived ward in the city

• Southmead Central is the most deprived LSOA in N&W, and is ranked the 11th most deprived in all of Bristol and the 613th most deprived in England (out of 32,844 LSOA's)

• 14.9% of children under 16 in North and West Bristol live in low income families, significantly lower than both the Bristol average of 22.0% and the UK average of 20.1% (2022/23).

HOUSING

Housing Tenure (Census 2021)

• 210 households are living in temporary accommodation in North and West Bristol, which equates to 13.8% of all households housed in temporary accommodation by Bristol City Council (30th July 24)

ADULT SOCIAL CARE

At a snapshot taken on 30th June 2024, there were:

• 1,577 service users , 691 (44%) were male and 886 (56%) were female

• The primary support reason was Physical (53%), followed by Learning Disability Support (18%), Mental Health Support (16%), Support with Memory and Cognition (8%) and other (5%)

• The main care types required by service users include Homecare (27%), Direct payments (15%), Nursing (15%), Supported Living (12%), Supported accommodation (10%) and Residential (10%).

Locality Partnership Health Profile 2024
North and West (N&W) Bristol

The report below shows how the locality compares with both the Bristol and England averages across a range of indicators.   The locality value is coloured to show whether the value is statistically significantly better (green dot), similar (amber dot) or statistically significantly worse (red dot) than the Bristol and England averages.   🟢 Better   🟡 Similar   🔴 Worse

% comfortable using digital services (QoL survey)	2023/24	+	**81.3%**	78.8%	Note 3	🟢	n/a

*Polarity: +/- This shows whether a higher or lower figure is preferred for a measure i.e. do we hope to see a bigger/increasing or a smaller/reducing number. For example we would like to see a higher percentage of children recorded as breastfeeding at their 6 to 8 week check and a lower number of hospital admissions as a result of self-harm in children and young people.

North and West (Inner) Bristol

POPULATION (2022 Mid-Year Estimates)

### N&W INNER population change 2012 to 2022

N&W (Inner) wards:
Bishopston & Ashley Down
Clifton Down
Clifton, Cotham
Hotwells & Harbourside
Redland
Stoke Bishop
Westbury-on-Trym & Henleaze

The total population has grown at a significantly higher rate than the city average (10.6%). Both the working age and over 65 populations have increased by over 25% compared to ten years ago and the child population has increased by nearly three times the city average (1.9%).
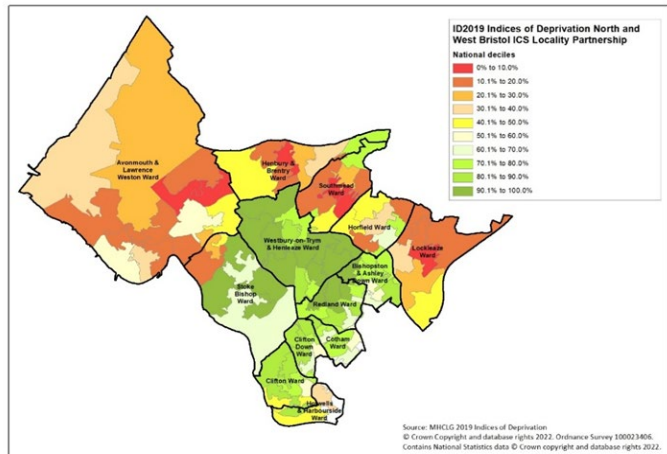

## LIFE EXPECTANCY AT BIRTH (2020-22)

ETHNICITY (Census 2021)

DEPRIVATION

• There are no residents in North and West (Inner) Bristol living in the most deprived areas of Bristol (Bristol average 19.9%)

• Sea Mills South is the most deprived LSOA in North & West (Inner) Bristol, and is ranked the 54th most deprived in all of Bristol and the 4,593rd most deprived in England (out of 32,844 LSOA's)

• 5.6% of children under 16 in North and West (Inner) Bristol live in low income families, significantly lower than both the Bristol average of 22.0% and the UK average of 20.1% (2022/23).

HOUSING

Housing Tenure (Census 2021)

• 43 households are living in temporary accommodation in North and West (Inner) Bristol, which equates to 2.8% of all households housed in temporary accommodation by Bristol City Council (30th July 24)

ADULT SOCIAL CARE

A snapshot taken on 30th June 2024 of North and West Bristol shows there were:

•1,577 service users , 691 (44%) were male and 886 (56%) were female

• The primary support reason was Physical (53%), followed by Learning Disability Support (18%), Mental Health Support (16%), Support with Memory and Cognition (8%) and other (5%)

• The main care types required by service users include Homecare (27%), Direct payments (15%), Nursing (15%), Supported Living (12%), Supported accommodation (10%) and Residential (10%).

North and West (Outer) Bristol

POPULATION (2022 Mid-Year Estimates)

N&W OUTER population change 2012 to 2022

2012: light grey, 2022: blue

- 0-15: +2.3%
- 16-64: +8.0%
- 65+: -0.3%
- Total: +5.5%

N&W (Outer) wards:
Avonmouth & Lawrence Weston
Henbury & Brentry
Horfield
Lockleaze
Southmead

The total population in North & West (Outer) has grown at half the rate of the city average (10.6%) due to a lower than average increase in the working age population (city average 13.7%) and a decrease in the over 65 population (city average 7.1%).
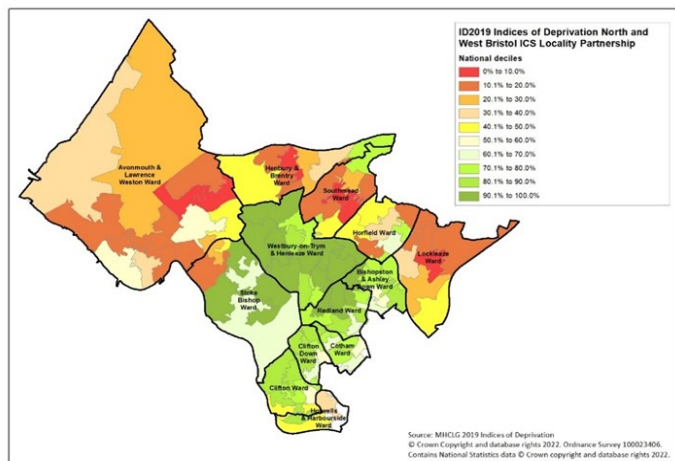

LIFE EXPECTANCY AT BIRTH (2020-22)

MALE Life Expectancy / FEMALE Life Expectancy

Southmead, Lockleaze, Avonmouth & LW, BRISTOL, Henbury & Brentry, ENGLAND, NORTH&WEST, Horfield

ETHNICITY (Census 2021)

- White: 81.1% (Bristol), 81.3% (North & West Outer)
- Other: 1.9% (Bristol), 1.8% (North & West Outer)
- Mixed/Multiple: 4.5% (Bristol), 4.2% (North & West Outer)
- Black: 5.9% (Bristol), 6.0% (North & West Outer)
- Asian: 6.6% (Bristol), 6.7% (North & West Outer)

DEPRIVATION

- North and West (Outer) Bristol has a lower proportion of residents living in the most deprived areas of Bristol than the Bristol average (16.6% v 19.9%)

- Southmead ward is the fourth most deprived ward in the city, Avonmouth & Lawrence Weston is the 5th most deprived, Lockleaze is the 6th most deprived and Henbury & Brentry is the 7th most deprived ward in the city

- Southmead Central is the most deprived LSOA in N&W Bristol, and is ranked the 11th most deprived in all of Bristol and the 613th most deprived in England (out of 32,844 LSOA's)

- 24.1% of children under 16 in North and West (Outer) Bristol live in low income families, higher than both the Bristol average of 22.0% and the UK average of 20.1% (2022/23).

HOUSING

Housing Tenure (Census 2021)

- Bristol: Owned 54.8%, Social rented 18.7%, Private rented 26.4%
- North & West Outer: Owned 52.1%, Social rented 29.1%, Private rented 18.8%

- 167 households are living in temporary accommodation in North and West (Outer) Bristol, which equates to 10.9% of all households housed in temporary accommodation by Bristol City Council (30th July 24)

ADULT SOCIAL CARE

A snapshot taken on 30th June 2024 of North and West Bristol shows there were:

- 1,577 service users , 691 (44%) were male and 886 (56%) were female

- The primary support reason was Physical (53%), followed by Learning Disability Support (18%), Mental Health Support (16%), Support with Memory and Cognition (8%) and other (5%)

- The main care types required by service users include Homecare (27%), Direct payments (15%), Nursing (15%), Supported Living (12%), Supported accommodation (10%) and Residential (10%).

Locality Partnership Health Profile 2024

North and West (Outer) Bristol

The report below shows how the locality compares with both the Bristol and England averages across a range of indicators. The locality value is coloured to show whether the value is statistically significantly better (green dot), similar (amber dot) or statistically significantly worse (red dot) than the Bristol and England averages. 🟢 Better 🟡 Similar 🔴 Worse

Indicator	Period	Polarity*	% / Rate			N&W Outer versus:	
			N&W OUTER	Bristol	England	Bristol	England
Life Expectancy							
Life Expectancy at Birth - FEMALES	2020-22	+	**81.5**	82.6	82.8	🔴	🔴
Life Expectancy at Birth - MALES	2020-22	+	**77.1**	78.1	78.9	🟡	🔴
Under 75 Mortality due to ALL CAUSES, age standardised rate per 100,000	2022	-	**462.7**	386.6	342.3	🟡	🔴
Children and Young People							
% of maternities with a record of smoking at the time of delivery, of those with a valid smoking status recorded	2023/24	-	**13.1%**	7.4%	7.4%	🔴	🔴
% of children recorded as breastfed at their 6 to 8 weeks check, of those with a valid feeding status recorded	2023/24	+	**67.2%**	73.6%	Note 2	🔴	n/a
Percentage of children measured that were overweight or very overweight - Reception year (4/5 year-olds)	2022/23	-	**25.9%**	21.5%	21.3%	🔴	🔴
Percentage of children measured that were overweight or very overweight - Year 6 (10/11 year-olds)	2022/23	-	**40.4%**	35.0%	36.6%	🔴	🔴
Hospital admissions caused by unintentional and deliberate INJURIES in children aged 0-4 years, crude rate per 10,000 resident population	2022/23	-	**75.6**	98.5	92.0	🟡	🟡
Hospital admissions caused by unintentional and deliberate INJURIES in children aged 0-14 years, crude rate per 10,000 resident population	2022/23	-	**82.4**	78.2	75.3	🟡	🟡
Hospital admissions as a result of SELF-HARM in children and young people aged 10-24, rate per 10,000	2022/23	-	**664.4**	525.3	319.0	🟡	🔴
Healthy Lifestyles							
% of adults overweight or very overweight (QoL survey)	2023/24	-	**53.9%**	47.2%	Note 3	🔴	n/a
% who do enough regular exercise each week (QoL survey)	2023/24	+	**58.2%**	66.6%	Note 3	🔴	n/a
% who eat at least five portions of fruit or vegetables per day (QoL survey)	2023/24	+	**45.8%**	48.8%	Note 3	🟡	n/a

% satisfied with life (QoL survey)	2023/24	+	**60.6%**	66.0%	Note 3	🔴	n/a
% who feel lonely because they don't see friends and family enough (QoL survey)	2023/24	-	**6.0%**	5.2%	Note 3	🟡	n/a
% comfortable using digital services (QoL survey)	2023/24	+	**74.7%**	78.8%	Note 3	🔴	n/a

*Polarity: +/- This shows whether a higher or lower figure is preferred for a measure i.e. do we hope to see a bigger/increasing or a smaller/reducing number. For example we would like to see a higher percentage of children recorded as breastfeeding at their 6 to 8 week check and a lower number of hospital admissions as a result of self-harm in children and young people.

North and West (N&W) Bristol

Notes:

(1) Data is available at different geographic levels within England. For this profile we have used Lower-layer Super Output Area (LSOA) data which is small geographies of approximately 1,500 residents or 650 households, or ward data if not available. These do not fit exactly to locality or PCN boundaries but are the best match possible. The data in these locality profiles is only a small part of the full Joint Strategic Needs Assessment (JSNA), please see www.bristol.gov.uk/jsna

(2) Local data has been calculated from source but not yet published at national level. Not possible to benchmark against.

(3) The Quality of Life Survey is specific to Bristol and not comparable with other local authorities, or nationally.

(4) Seasonal influenza vaccine uptake in GP Patients is an automated collection from a large sentinel group of 40 GP practices in Bristol.

(5) A maternity is a pregnancy resulting in the birth of 1 or more children (including stillbirths)

(6) Long-acting reversible contraception (LARC) is defined as contraceptive methods that require administration less than once per cycle or month. Included in the category of LARC for this indicator are subdermal implants and coils. Injections are not included.
